

# Advanced actions

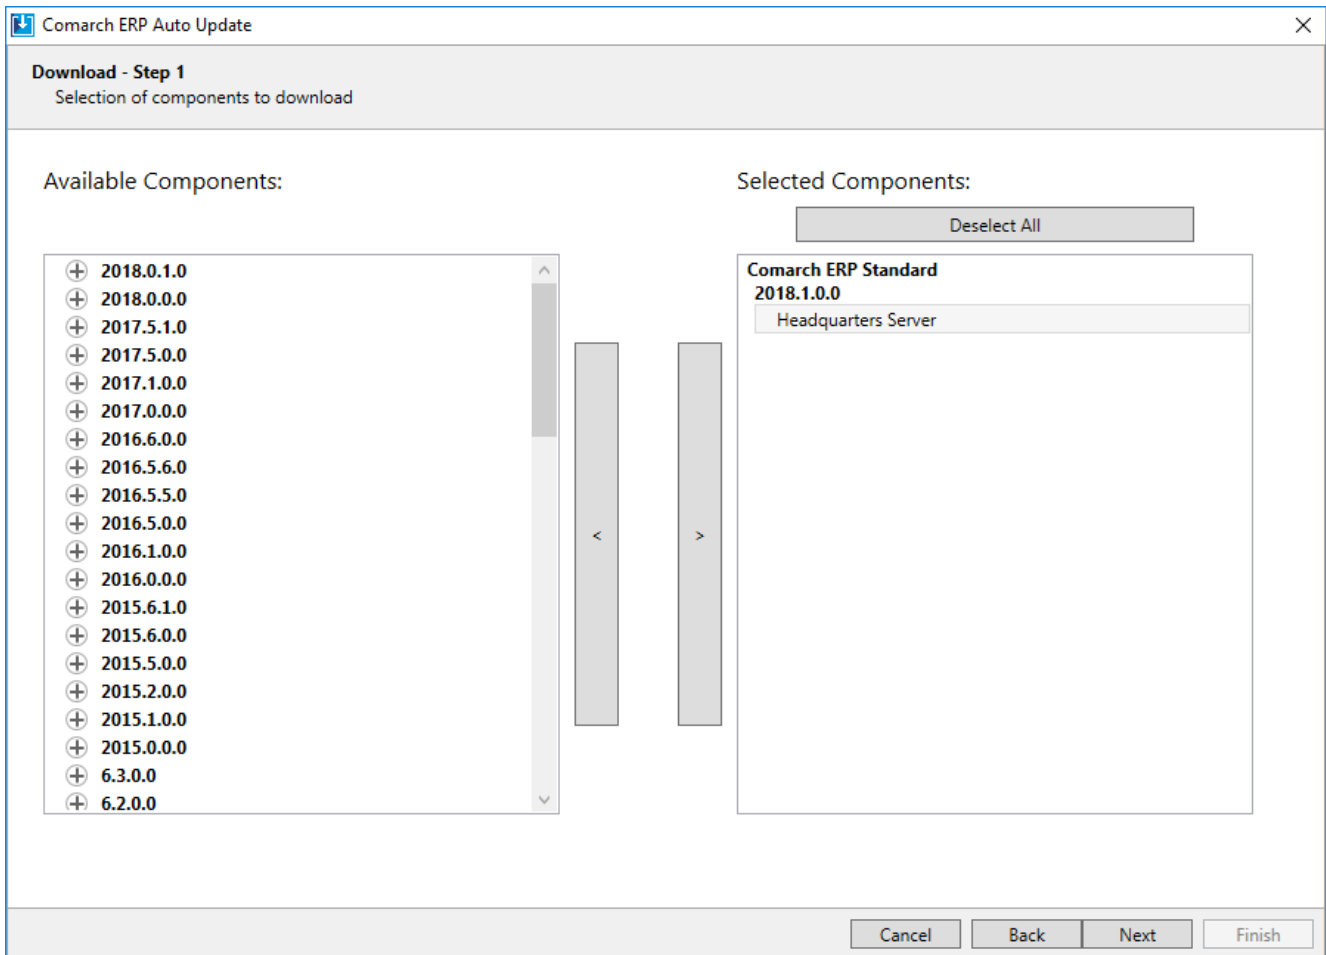

The window of advanced actions wizard can be opened by selecting [Advanced Actions] button, available in the left down corner of the Comarch ERP Auto Update main window. The wizard of advanced actions allows for:

- Downloading selected product version
- Installing selected product version
- Making a rollback of selected product version
- Uninstalling selected product version

Advanced actions wizard

In the next step, it is necessary to move selected elements to the right side of the window.

## Selecting components to download

When installing, making rollback to a previous version or uninstalling a product, all related programs and services will be closed. When uninstalling a given product, it is possible to delete downloaded files and configuration backup copies.

### Note

It is necessary to remember that after uninstalling Comarch ERP Standard system, the database is not deleted.
