

# Checks

## Note

The functionality of checks is available in the English and German versions of databases.

A check is a document that orders a bank to pay a specific amount of money to the person in whose name the check has been issued. The money is paid from the check drawer's account. An order to pay money is unconditional. An order to pay money is unconditional.

## List of checks

The list of checks is available from the level of menu *Finances*, upon clicking on [**Checks**] button.

The screenshot shows a software interface for managing checks. At the top, there is a toolbar with various icons. Below it is a table with the following columns: Date, Number, Payee, Revenue, Expense, Currency, Paid, Account, Note, and Owner. The table contains three rows of data for checks issued on 04/01/2021 to Comarch S.A. with amounts of 900.00, 700.00, and 500.00, all in EUR. Below the table is a summary bar showing totals for Revenue (0), Expense (0.00), and Paid (0.00). At the bottom, there is a filter panel with sections for General, Amount, and Date, each containing dropdown menus and input fields for filtering the data.

| Date       | Number                   | Payee        | Revenue | Expense | Currency | Paid | Account         | Note | Owner   |
|------------|--------------------------|--------------|---------|---------|----------|------|-----------------|------|---------|
| 04/01/2021 | CHECK/2021/Bank of Am... | Comarch S.A. | 900.00  | 0.00    | EUR      | 0.00 | Bank of America |      | Company |
| 04/01/2021 | CHECK/2021/Bank of Am... | Comarch S.A. | 0.00    | 700.00  | EUR      | 0.00 | Bank of America |      | Company |
| 04/01/2021 | CHECK/2021/Bank of Am... | Comarch S.A. | 500.00  | 0.00    | EUR      | 0.00 | Bank of America |      | Company |

## List of checks

The list of checks is composed of the following columns:

- **Date** – check issuance date
- **Number** – introduced manually by a user or automatically by the system in accordance with numbering tool definition, depending on the method of adding a check
- **Payee** – person a check is made out to

- **Revenue** – value of a check of *Deposit* type
- **Expense** – value of a check of *Withdrawal* type
- **Currency** – currency in which check was issued
- **Paid** – check amount already paid
- **Account** – cash register or bank account in which a given check will be registered
- **Note**
- **Status**
- **Owner** – center of the company structure which is the issuer of a document

The list contains standard buttons which have been described in article <<Standard buttons>>.

#### Note

A given check can be printed only once.

Detailed description of functioning of the filters can be found in category <<*Searching and filtering data*>>

## Adding check

A check can be added to the system by means of the following buttons:

- **[Add Deposit]** or **[Add Withdrawal]** – check number is introduced by the system automatically, according to the definition of numbering tool and it is not editable
- **[Add Manual Deposit]** or **[Add Manual Withdrawal]** – check number is completed by a user

The method of filling in check forms is the same both for deposits and withdrawals.

In order to add a withdrawal check, it is necessary to select button **[Add Deposit]** from *List* group. A form for entering data appears.

Number → CHECK / 2021 / Bank of America / 00002

Date: 04/01/2021
